

MANUFACTURER DECLARATION

We, SPX Hydraulic Technologies, herewith confirm that

- our products “Hydraulic Pullers” of the PH-series have been designed and built in accordance with the following standards : EN-ISO 12100:2011, EN 4413:2010 & ASME B30.1 and fully comply with the criteria set forth by the standardization organization therein.
- all mechanical parts & cylinders have been tested dynamically for function- and leakage- test against the stop-ring (where applicable), respectively against a dead-stop.
- the design of all mechanical parts & cylinders is tested and verified by a cycle test at rated load.

SPX Hydraulic Technologies is certified and registered to ISO 9001: 2008
